The Card Game

Rule Booklet

How to Win

The winner is the player with the most sets of toilet paper when the game ends.

The game ends when all 7 spaceship parts have been drawn from the deck.

In the event that multiple people have the same number of sets, the one with the most points wins.

- Common TP - 1 point per set
- Rare TP - 2 points per set
- Mythical TP - 3 points per set

Setup

Place a butt character card face up on the play area in front of each player.

- **If there are less than 4 players, place the extra butt character cards on the play area as if they were in use.**

Shuffle the remaining cards and place them face down to form the draw pile. The player with the biggest butt goes first.

On Your Turn

Draw from the draw pile until you have 6 cards in your hand. If you already have 6 or more cards, draw 1 card.

There are two types of cards that must be played immediately after drawing your hand. Asteroids and Ship Parts.

When an asteroid card is drawn, you must lay it in the discard pile and give every other player a card from your hand.

When a ship part card is drawn, lay it face up on the side of the play area and draw another card.

Now you may play other cards from your hand. There is no limit to the number of cards you can play per turn.

- **Action cards are played to the discard pile.**

- **Toilet paper cards are played by laying a completed set face up in front of you.**
- **A completed set consists of 1 mythical, 2 rare, or 3 common toilet paper.**

- Each toilet paper in a set must also have the symbol on your current butt character card in order to play it.

Butt Butt -

- A maximum of one toilet paper card in a common or rare set can be replaced with a wild TP card.

- Some toilet paper cards have actions that you must perform when you lay them down in a set.

If the butt character cards are rotated, any completed toilet paper sets you've laid down remain yours and count toward your final score.

Your turn ends whenever you decide to stop playing cards from your hand. You do not discard when ending your turn.

Underwear

The underwear card can be played to the discard pile at any time on anyone's turn. It is used to protect you from the effect of any other card that involves you.

For example, if a player uses a red crystal on you to steal a card, underwear will prevent you from losing a card. If a power fart rotates the butts, underwear will prevent your butt from rotating. Etc.

Action Cards

Green Crystal

Red Crystal

Crate

Look at another player's hand and take a card of your choosing.

- Steal a random TP from everyone's hand.
